

Design Patterns

Cre Singleton

Singleton

Cre Abstract Factory

create instance

Beh Strategy

or global constructor
or global access -> class

Beh Observer

if (instance) {

Sta Composite

return instance

Beh Template Method

obj {

new

}

Singleton

Singleton

new {

- static instance

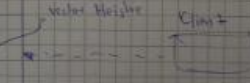

Singleton Singleton, new Singleton();

- Singleton

- Singleton {

return instance

- Singleton {

- Singleton {

return instance

- Singleton {

return instance

}
